Yes, we have a logo and will forward it to you.

Ellen

Hi Ellen and Joanne,

The Big Belly manufacturer is recommending that a wrap or logo be applied to the trash receptacles as an anti-graffiti measure.

Is there a logo which the Little Tokyo BID would like to place on the wrap? If so, please provide a high resolution image of file of this logo for us to send to the manufacturer. See attachment for the Custom Station Wraps instructions.

If no logo is requested, we will proceed with the black wrap around the receptacle.

Please contact me with any questions.

Thanks,

George (Chen-Min) Huang, P.E.

That's wonderful! We recommend the proposed trash receptacle in the attached drawings and photos. Could we go ahead and ask the contractor to order them in black color?

Lastly, any thoughts about the benches too? Attached is a photo of the bench for reference. We would prefer to install them at locations acceptable to the community.

Thanks!

Absolutely amenable. We have a contract with LA Conservation Corps who occasionally remind us they are willing to do more pickups.

Thanks!

Ellen

Hi Ellen,

We also have the opportunity to procure and install an additional 10 trash receptacles and

10 benches as part of this ATP project. Would the Little Tokyo Bid be amenable to provide trash pickup and maintenance services for these new receptacles and benches?

If yes, does the BID have some particular trash receptacle and bench selection types in mind? Attached is a sample of both items which we used on similar projects. We are open to suggestions on the placement locations as well.

If you know of any other property owner or organization which would be interested, please share their contact info and we can reach out to them.

Thank you,

George (Chen-Min) Huang, P.E.
